

INTERNATIONAL JOURNAL OF NANO CORROSION SCIENCE AND ENGINEERING.

RESUME

Name : **Dr. T.V. Venkatesha**

Date of birth : 14/10/1960

Place of Birth : Kachinakatte Village,
Shimoga

Current Position and Address : Professor of chemistry
Dean, Faculty of Science
School of Chemical Sciences
Department of Chemistry
Kuvempu University
Shankaraghatta-577 451
Shimoga, Karnataka, India

Email : drtvvenkatesha@yahoo.co.uk

Phone : 08282 256308 (O) 08182 242571 (R) 09448855079

1. Educational Qualification:

Sl.No.	Degree	Year	University/Institute	Grade	Subject
1	Ph. D	1988	Bangalore University	By thesis	Chemistry (Electrochemistry)
2.	M. Sc.,	1983	Bangalore University	I rank I class	Chemistry (physical chemistry)
3	B. Sc.,	1981	APS college, N R Colony Bangalore. Bangalore University	I class	P C M

Title of the Ph.D. thesis : "Development of Brighteners For Non Cyanide

Industrial Zinc- Cadmium Electroplating Baths”

Academic Distinctions : a) Distinction in B. Sc.,
b) First place in M. Sc.,
c) **Gold medal** for securing highest marks in M.Sc.

Research Area : Electrochemistry, Metal Finishing, Corrosion,
Surface modifications, Nano composite coatings, Kinetics,
Galvanic coating, Electrochemical treatment of effluents,

2. Academic / Employment:

Teaching experience: **27 years**

Research experience: **29 years**

Industrial experience: **04 years**

Sl.No.	From	To	Name of organization	Position held
1	Jan 2006	Till date	Kuvempu University	Professor
2	May 1998	Jan 2006	Kuvempu University	Reader
3	Jan 1994	May 1998	NITK, Surathkal, Govt. of India	Sr. Lecturer
4	Jan 1989	Dec 1993	NITK, Surathkal, Govt. of India	Lecturer
5	May 1987	Dec 1988	Bangalore Institute of Technology, Bangalore	Lecturer
6	June 1983	Apr 1987	Bangalore University & Indian Telephone Industries Limited, Bangalore	Project Assistant in a DST, New Delhi research project

3. Professional Affiliation

Life Membership : Indian Society for Technical Education, New Delhi

in professional bodies Crystal Growth Association of India. Chennai.
Electrochemical society of India. Bangalore.
Indian Council of chemists, Lucknow

Member : Faculty of Science and Technology, Kuvempu University
BOE, BOA, BOEA & BOS in chemistry, Indian Science
Congress, SAEST, CECRI. Karaikudi.

4. Administrative/ Organization and other experience

- Worked as acting **Vice-Chancellor** of Kuvempu University on 09/07/2013.
- **Dean, Faculty of Science and Technology**, Kuvempu University, Since Nov 2011.
- Academic council member, Kuvempu University, since Nov 2009-2013.
- Academic council member, Sahyadhri science college (autonomous), Kuvempu University, Shimoga, during 2012-13.
- Director, School of Chemical Science Kuvempu University 2010 -12
- Chairman, Department of Chemistry and Organic Chemistry, Kuvempu University Sept 2009- Nov 2011.
- Chairman, BOS, PG Chemistry Kuvempu University, Shankaraghatta, since Sept 2009.
- CAC member Kuvempu University, Jan 2010.
- Co-Ordinator (Rs. 44 lakhs) FIST-DST, New Delhi 2010-2015.
- Deputy Co-Ordinator (Rs. 45 lakhs) DRS-SAP UGC New Delhi 2009-2014.
- Co-Ordinator (Rs 20 lakhs) UGC- non SAP , New Delhi 2009-2010.
- Merit scholarships guideline committee member 2009-2010.
- M.Sc., M.Phil. and Ph.D. admissions member and Chairman.
- President, Chemical Society, Dept. of Chemistry Kuvempu University Sept 2009-2011.
- Co-Ordinator Distance Education, Kuvempu University, 2006, 2011 and 2013.
- Convener/ organizing secretary for FIVE national seminars from 1998 to till date.
- Secretary, Chemical Society, Dept. of Chemistry Kuvempu University 2003&2006.
- Vice president Kuvempu University Teachers Association 2003.
- Member of BOE in Chemistry, Karnataka State Universities.
- Member of BOA in Chemistry, Kuvempu and other State Universities.
- Working as Referee for International Journals.
- Chairman and Member of Colleges affiliation committee.

Collaboration:

- Two papers were published with Chonbuk National University, Jeonju, South Korea.
- Dept. of SSCU, Indian Institute of Science (IISc), Bangalore.

- Dept. of Chemistry National Institute of Technology, Surathkal.
- Central electrochemical research institute Karaikudi Tamil Nadu.
- Department of Chemistry, Mangalore University, Mangalore.
- Dept. Of Chemisty, Shri Venkateshwara College, Dhula Kuan, New Delhi.
- Dept. Of Chemistry, Srinivas School of Engineering, Mukka, Mangalore.
- Dept of Chemistry, SSMRV College, Bangalore
- Dept. of Biochemistry, Dayanand Sagar College, Bangalore

5. Honour / Awards:

Year	Award / Prize
2012	Third prize for poster presentation in 5 th annual conference on “Science & technology for societal transformation” jointly organized by KSTA & Dayanand Sagar Institutions. 19 th -20 th 2012. Bangalore
2011	Best paper award (1 st) at National Seminar held at Sri Bhaghavan Mahavir Jain College ,Bangalore on 28 th and 29 th Dec-2011. Jain University Bangalore and Tumkur University, Tumkur.
2010	Best paper award (consolation) at NCRAET Gandhigram Rural Institute-Deemed University, Gandhigram, Dindigul, Tamil Nadu. Feb 2010.
2009	Best poster Paper award (2 nd) at ICRAIEST-2009, Mangalore University. November 2009.
2009	Best paper award (1 st) at Conference on Nanotechnology, Dept of Chemistry, M. Basavaiah Residential College, Chemical Society, Kuvempu University, Sirigere, Chitradurga. Sept.2009
2008	Best poster paper award (1 st) at NCCI by CECRI and IICT Hyderabad Sept 2008
1992	Young Scientist research project award by DST, New Delhi
1987	One Research paper was translated to French language due to its technological applications.
1983	First rank in M. Sc. (Gold medal)

6. Participation in Abroad Conferences

- International conference on Global challenges – the role of chemistry in giving their solutions. 11th – 15th June 2011, ICC, Bangkok, Thailand.

7. Research projects:

Sl. No.	Title	Supporting agency	Year	Amount (In `)	Position
---------	-------	-------------------	------	---------------	----------

1.	Studies on non cyanide Zinc electroplating bath for plating on carbon steel	UGC	1989- 91	18,500/-	Principal Investigator (PI)
2.	Development of Industrial zinc electroplating from chloride type bath	DST	1992-94	1,20,000/-	PI
3.	Optimization of electrodeposition solution by theoretical studies	Kuvempu University	2000-01	18,000/-	PI
4.	Development of new pollution free addition agents for industrial zinc plating by electrochemical method.	UGC, New Delhi	2007-09	3,94,000/-	PI
5	Solar Energy Based Electrochemical Recovery of Heavy Metals from Industrial Effluents – An Eco-friendly process.	UGC, New Delhi	2007-09	6,03,100/-	Co-investigator
6.	Development of Zn-TiO ₂ Nano Particles composite Coating for Industrial Applications.	DST, New Delhi	2008-11	25,67,584/-	PI
7.	Electrochemical Advanced method for degradation of Hazardous and Toxic Chemicals of Industrial Effluents.	UGC, New Delhi	2012-15	12,39,800/-	PI

8. Ph. D., M.Phil., M.Tech., Guidance

Sl. No.	Name of the Candidate	Title of the Ph. D Topic	Degree	Year
---------	-----------------------	--------------------------	--------	------

1	Shrikantha Pai	Bright Chromium Plating From Acid Bath on Mild Steel	M.Tech	1996
2	E.T.Shankarappa	Development and Optimization of a new brightener for Zinc –Nickel alloy Plating from sulphate-Chloride bath	M.Phil	1999
3	Arthoba Naik Y	Development and optimization of brighteners for industrial zinc electroplating from acid and non-cyanide alkaline baths	Ph.D	2002
4	N.Shobha	Development of New Addition Agent for Zinc-Nickel Alloy Bright plating from Sulphate bath	M.Phil	2002
5	Rajappa S K	Development of new chelating agents as zinc and steel corrosion inhibitors and surface treatment of zinc	Ph.D	2004
6	Kariyanna K G	Development of industrial zinc alloys electroplating baths	Ph.D	2005
7	H.P.Sachin	Electro organic synthesis of some technologically important compounds	Ph.D (Co-Guided)	2007
8	Ganesha Achary	Synthesis of electroactive organic compounds for the surface modification of some industrially important metals	Ph.D (Co-Guided)	2007
9	Anil Venkatesh Shanbhag	A study of the inhibition effects of non-toxic organic inhibitors on corrosion of steel and zinc	Ph.D	2008
10	Prabhu R A	Development of New Electroactive compounds as corrosion inhibitors for steel and zinc, and for zinc surface treatment	Ph.D	2008
11	S Shiva Kumar	Electroorganic Synthesis of Some Technologically Important Compounds	Ph.D (Co-Guided)	2008

12	Srinath K V	Corrosion and its inhibition studies on branded steel and brass of industrial importance.	Ph.D	2009
13	Shankaresha N	Design of organic molecules as surface modifiers for some Industrially important metals	Ph.D	2009
14	Praveen B M	A study on the effect of addition agents on electrodeposition and corrosion of zinc	Ph.D	2009
15	H.B. Muralidhara	A study on the effect of electroactive compounds on electroplating of zinc and its alloys	Ph.D (Co-Guided)	2009
16	P. Sarala	Electrochemical Studies and Treatment of Synthetic Dye Effluent	M.Phil	2009
17	N.S.Ashmitha	Electrochemical Studies and Degradation of Azo dye	M.Phil	2009
18	Poornima Kumari	Studies on Substituted Pyrimidine and Biquinoline and its Application	M.Phil	2009
19	Vathsala K	Studies on electrodeposition of metal composites	Ph.D	2010
20	G Harshini	Development of inhibitors for corrosion of mild steel	M.Phil	2010
21	M K Pavithra	Corrosion inhibition studies by Electrochemical methods	M.Phil	2010
22	Chandrappa K.G.	A study on generation of nano and micro sized particles and their technological applications	Ph.D	2012
23	Nayana K O	A Study on the Influence of New Additives on Electrodeposition of Zinc and its Alloys For Technological Application	Ph. D.	2012

24	Shilesha B S	A Study on the use of plating bath addition agents on corrosion behavior of steel and zinc	Ph. D.	2012
25	Nataraja S E	A Study on the effect of electroactive organic molecules on the corrosion of steel and their Inhibition action in acid medium	Ph. D.	2012
26	Rangaraju P R	A Kinetic and Mechanistic Investigation on Catalytic oxidation of Few Biomolecules	Ph.D	2013
27	Sarala P	Electrochemical Studies on the Treatment of Dye Effluents	Ph.D	2013
28	Ranganatha S	Preparation of anticorrosive thin film for steel materials	Ph.D	2013
29	Punith Kumar M K	Development of Zn-Nano particles composite coating process for Industrial application	Ph.D	2013
30	Praveen Kumar C M	Studies on Characterization properties and applications of composites	Ph.D	2013
31	H. Manjunath	Development of Micro and Nanosized cathode materials for aqueous rechargeable lithium batteries.	Ph.D Co-guided	2013
32	K. C. Mahesh	Development of Nanosized cathode materials for aqueous rechargeable lithium batteries	Ph.D Co-guided	2013
33	Shubha.H.N.	Preperation and Performance evaluation of organic coatings as barrier films for corrosion protection.	Ph.D (Working)	
34	Naveen Kumar.T.	Kinetic and Mechanistic studies of few biologically important Drug molecules by electroanalytical techniques.	Ph.D (Working)	
35	S.A. Srikanta	Studies on the electrochemical behavior of some important Nitro compounds and their industrial applications.	Ph.D (Co-Guide, Working)	

36	Pavithra M.K	Electrochemical and quantum mechanical approach for the study of corrosion inhibition behavior of steel and aluminium in presence of few selected organic compounds.	Ph.D (Working)	
37	T.C.M. Yuvaraj	Preparation and spectral studies of 3d group transition metal complexes of semicarbozones, thio semicarbozones derivatives	Ph.D (Co-Guide, Working)	
38	M. Mallesh	Studies of layer-by-layer polyelectrolyte adsorption and their applications to biosensors	Ph.D (Co-Guide, Working)	
39	R. Manjunath	Development of Layer-by-Layer self assembled thin films for chemical and biochemical sensors.	Ph.D (Co-Guide, Working)	
40	S. Prasanna kumar	Conducting Polymer films for sensor application	Ph.D (Co-Guide, Working)	
41	R. B. Shivashankaraiah	Synthesis of Nano sized electrode materials for aqueous rechargeable lithium batteries.	Ph.D (Co-Guide, Working)	
42	S. Anitha	Phytochemical investigation and pharmacological screening of Abroma augusta, Coscinium fenestratum and Rotula aquatic	Ph.D (Co-Guide, Working)	

9. Worked as Convener/Executive member - Conferences

Sl No.	Title	Seminar /conference Symposia/workshop	Date	Regional / National/ International	Funding agency
1	Micro analytical techniques	One day seminar	1998	National	Kuvempu University
2	Industrial entrepreneurship motivation	One day workshop	1999	National	Kuvempu University

	program me				
3	Polymer technolo gy for industry and society	Semina r	200 0	Natio nal AICT E,CIP ET	Kuv emp u Univ ersit y UGC, CSIR ,
4	19 th annual confere nce of Indian council of chemist s	Confere nce	200 1	Natio nal	Kuv emp u Univ ersit y UGC, CSIR

5	Concise course in advance instrumental chromatographic technique	Workshop	2001	National	Kuvempu University ICC, CSIR, UGC, DST
6	Chemistry for changing times	One day workshop	2002	National	Kuvempu University
7	Frontier	One day	200	Natio	Kuv

	areas in chemistry	seminar	3	national	empu University
8	Recent developments in spectroscopic technique	One day seminar	2003	National	Kuvempu University
9	Scenario of research and business opportunity	Three day national seminar	2004	National	NMPB, MPA, Kuvempu

	nities in medicinal and aromatic plants in 21 st century				u Univ ersit y
1 0	Recent advances in electrochemical and surface sciences for industry and society	Two days seminar	2004	Natio nal	Kuv emp u Univ ersit y, CSIR , AIC TE

1 1	National confere nce on Chemica l Sciences for industry and Society	Three days semina r	200 6	Natio nal	Kuv emp u Univ ersit y, CSIR
1 2	Worksh op on Researc h activitie s in chemica l	One day worksh op	200 6	Natio nal	Kuv emp u Univ ersit y

	sciences				
1 3	National conference on Emerging Areas in Chemical and Biological Sciences	Two day national conference	200 7	National	University, CSIR , DBT & AICTE, New Delhi, Directorate of distance edu

					cati on, Kuv emp u Univ ersit y
1 4	Nanotec hnology past, present, future	One day Nationa l Semina r	200 8	Natio nal	Kuv emp u Univ ersit y
1 5	Recent trends in Chemica	Two Day Nationa l	201 0	Natio nal	UGC -SAP Kuv emp

	l and Biologic al Sciences	Confere nce			u Univ ersit y
1 6	National conference on Social relevance of chemical sciences	Two Day Nationa l Confere nce	26 – 27 th Marc h- 201 1	Natio nal	UGC -SAP Kuv emp u Univ ersit y
17	KSTA sponsored Special lecture Series on Chemistry	Three day workshop	15- 17 th November 2011	Regional	Karnataka Science and Technology Academy, Govt. of Karnataka, Kuvempu University
18	International Year of Chemistry	One day Workshop	22 nd Oct 2011	National	UGC, Kuvempu University

19	Chemistry-our life our future	Two days national seminar	25 – 26 th April 2012	National	Kuvempu University
----	----------------------------------	------------------------------	-------------------------------------	----------	-----------------------

10. Study Materials – M.Sc. Chemistry Distance Education

Sl. No	Title of the Book	Publisher	Year
01	Physical chemistry IV	DEC, Kuvempu university	2004
02	Physical chemistry VIII	DEC, Kuvempu university	2005
03	Practical Physical chemistry I	DEC, Kuvempu university	2005
04	Practical Physical chemistry II	DEC, Kuvempu university	2006
05	Applied Physical chemistry	DEC, Kuvempu university	2007
06	Physical chemistry IV	DEC, Kuvempu university (SIM Mode)	2011
Books			
01	Electrodeposition and Nanocomposite	Lambert publication, Germany	2012
02	Corrosion Inhibitors	Lambert publication, Germany	2012

11. Invited Talks given

- Resource person, “PUC college Teachers subject training programme”, 8-11-2008, PUC and Job oriented course Department, **Chitradurga**.
- 2nd AP Science Congress, 14th - 16th November 2009, Andhra Pradesh academy of Sciences, Sri Venkateswara University, **Tirupati, Andhra Pradesh**.
- “Electrochemical Concepts for Technological Applications”, National Conference, 3rd & 4th March 2010, SJVP College, Autonomous, **Harihar**.
- “Electrochemistry for key Technological applications”, 24th February 2011, Government Women College, **Mulabagilu, Kolar**.
- “Electrochemical generation of metal oxides nanomaterials for degradation of toxic organic compounds and their anticorrosive composite coatings”, International conference on Global challenges – the role of chemistry in giving their solutions, ICC, 11th - 15th June 2011, **Bangkok, Thailand**.
- “Electrochemical concepts for development of materials and their key technological applications”, Refresher Course, 20th June 2011, Mysore University, **Mysore**.
- UGC sponsored National Conference On “Recent Trends in Chemistry (RTC – 2011)”, 16th – 17th September, 2011, Department of Chemistry, P.E.S. College of Science, Arts & Commerce. **Mandya, Karnataka**.
- “150th birth anniversary of Bharatha Ratna Sir. M. Visvesvaraya’s Memorial Frontier Lecture Series” 23rd November 2011, Department of post graduation in chemistry, Government science college, Affiliated to university of Mysore, **Hasan, Karnataka**.
- National conference on chemical and Environmental Science (NCCES -2011) 28th and 29th December 2011, Department of chemistry Mahavir Jain college. **Bengaluru**.
- Talk delivered on ‘Chemistry education and its importance’ on 14th February 2012 organized by council for Popularization of Science education, Kuvempu University for high school teachers
- Invited talk on importance of electrochemistry for M.Sc students and research scholars arranged by Chem-club, Dept. of Chemistry, Gulbarga University, Gulbarga on 23-2-2012.
- Invited talk on ‘Ceramics to Coatings-Generation of nanosized ceramics reinforced zinc composite coatings for potential applications’ in the Two days conference on Impact of Chemical Biology on Society (NCICBS-2012) organized by Dept. of Industrial Chemistry, Kuvempu University on 26-27 April 2012.

- Invited talk on ‘Corrosion of materials’ at One day state level seminar on “Chemistry-our life, our future” organized by Sri Jagadguru Chandrashekhara Bharathi memorial college, Sringeri, on 27th March 2012.
- Presidential talk in Two days national seminar on “Progress in Biomedical Research and its Impact on Human Health” organized by Dept. of Biochemistry, Kuvempu University on 3rd April 2012.
- Presidential address in Valedictory function of National conference on “New Frontiers in Animal Science” organized by Dept. of Applied Zoology, Kuvempu University on 10th April 2012.
- Presidential talk at valedictory function of “National Conference on Biotechnological and Society” (NCBS 2012) organized by Dept. of Biotechnology and Bioinformatics, Kuvempu University on 20th April 2012.
- Valedictory address in the ‘National seminar on Current issues of western ghats-problems and solutions & alumni meet – 2012’ organized by Environmental science, Kuvempu University on 21st April 2012.
- Presidential talk in ‘Two days national conference on Impact of Chemical Biology on Society (NCICBS-2012) organized by Dept. of Industrial Chemistry, Kuvempu University on 26 – 27th April 2012.
- Presidential address in the valedictory function of one day national seminar on ‘Current Progress and Future Prospects in Cancer Research’ organized by Dept. of Biochemistry, Kuvempu University on 22-02-2013.
- Invited talk on “Newer Environmental Challenges and their Confrontation Using Modern Techniques” organized by –Dept. of Chemistry, DVS college of arts and science conducted seminar on environmental pollution: a threat to global life on 03-03-2014.
- Invited talk on “Corrosion & its control through electrochemical techniques” organized by –Dept. of Chemistry, Bangalore University, Bangalore on 24-03-2014.
- Invited talk on “Eco-friendly applications of electrochemistry; Pollution control and generation of materials” organized by UGC – Academic staff college, university of mysore, mysore on 30-03-2013.
- Invited talk on “physical aspects of spectroscopy” organized by –Dept. of Chemistry, sahyadri science college (autonomous) shimoga on 15-04-2014.

12. Research Publications

No. of Research Publications : 172

1. Acid sulphate bath-Anthranilic acid and Formaldehyde as brighteners.
T. V. Venkatesha, J. Balachandra, S. M. Mayanna
Metal Finishing, 1985, 33-36.
2. m-Nitrobenzaldehyde as brightener for acid zinc sulphate bath.
T. V. Venkatesha, J. Balachandra, S. M. Mayanna
Metal Finishing, 1986, 29-31.
3. Effects of Glycine and thiourea as brighteners in an acid zinc sulphate bath.
T. V. Venkatesha, J. Balachandra, S. M. Mayanna & R. P. Dambal
Plating and Surface Finishing, 77-80, 1987.
4. A Brightener system for acid zinc plating.
S. M. Mayanna, **T. V. Venkatesha**, R. P. Dambal & J. Balachandra
Metal Finishing, 1987, 15-18.
5. Acid sulphate bath for electrodeposition of cadmium.
S. M. Mayanna, **T. V. Venkatesha**, J. Balachandra & R. P. Dambal
Metal Finishing, 1988, 39-41.
6. A brightening agent for zinc plating.
T. V. Venkatesha, J. Balachandra, R. P. Dambal & S. M. Mayanna
Plating and Surface Finishing, 1988.
7. Effects of dimethyl sulfoxide and allyl thiourea on industrial zinc plating.
T. V. Venkatesha, S. M. Mayanna
Metal Finishing, 1989, 28-31.
8. Industrial zinc sulphate baths-Basic studies.
T. V. Venkatesha, S. M. Mayanna
Bulletin of Electrochemistry, 1989, 5 (10), 733-736.
9. Histidine ninhydrin as zinc brighteners for acid zinc sulphate bath.
T. V. Venkatesha, S. M. Mayanna & J. Balachandra
Metal Finishing, 1990, 88 (8), 40.

10. Bright plating of zinc on medium and high carbon steels from sulphate baths.
T. V. Venkatesha and A. V. Adhikari
Bulletin of electrochemistry, 1993, 9, 76-79.
11. Development of industrial zinc electroplating from chloride type bath.
T. V. Venkatesha
Group monitoring workshop, Bombay. DST, 11, 19, 66-70, 1993.
12. Bright zinc-nickel plating from chloride bath.
T. V. Venkatesha
J. Electrochem. Soc. India, 1996.
13. Bright zinc plating from chloride bath.
T. V. Venkatesha
Bulletin of electrochemistry, 1996, 12 (7-8), 472-476.
14. Bright zinc- nickel alloy plating from sulphate chloride bath.
T. V. Venkatesha
J. Electrochem. Soc. India, 1997, 46(1), 15.
15. Hull cell –An inexpensive tool for optimizing industrial zinc plating bath.
T. V. Venkatesha
Research Bulletin, 1997,1,16-19.
16. Electroplating of Zinc from sulphate chloride bath.
T. V. Venkatesha
Bulletin of Electrochemistry, 2000.
17. Effect of yeast extract on electro deposition of zinc-Hull cell studies.
Y. Arthoba Naik, **T. V. Venkatesha** & P. Vasudeva Nayak
J.Electrochem.Soc.India, 2000, 49(3) 170-173.
18. Effect of condensation product on bright zinc electrodeposition from sulphate bath.
Y. Arthoba Naik, **T. V. Venkatesha** & P. Vasudeva Nayak
Indian Journal of Chemical technology, 2001, 8, 390-395.
19. A study on corrosion of steel and zinc in an electroplating acid baths.
S. K. Rajappa, Y. Arthoba Naik & **T. V. Venkatesha**
Bulletin of electrochemistry, 2001, 17, 489-494.

20. Electro deposition of zinc from chloride solution.
Y. Arthoba Naik, **T. V. Venkatesha** & P. Vasudeva Nayak
Turkish Journal of chemistry, 2002, 26, 725-733.
21. Corrosion resistance and electrochemical properties of bright zinc deposits from sulphate baths.
Y. Arthoba Naik, **T. V. Venkatesha** & P. Vasudeva Nayak
Transaction of SAEST, 2002, 37, 39-42.
22. New addition agent for bright zinc nickel alloy plating.
N Shoba & **T. V. Venkatesha**
Transaction of SAEST, 2002 37(2) 49-54.
23. New condensation products as corrosion inhibitors for mild steel in an hydrochloric acid medium.
S K Rajappa & **T. V. Venkatesha**
Indian Journal of Engg and Mat.Sci., 2002, 9 213-217.
24. Effects of imines on corrosion of mild steel in 2M hydrochloric acid solution.
S K Rajappa & **T. V. Venkatesha**
J. Teaching and Research in chemistry, 2002, 9(2) 34-39.
25. Effect of imines on corrosion rate of zinc in hydrochloric acid medium by chemical and electrochemical studies.
S K Rajappa & **T. V. Venkatesha**
J.Electrochem.Soc.India, 2002 51(2) 54-58.
26. Electro deposition of zinc-nickel alloy from sulphate bath
K G Kariyanna & **T. V. Venkatesha**
J.Electrochem.Soc.India, 2002 51(2) 71-74.
27. Inhibition studies of a few organic compounds and their condensation products on the corrosion of zinc in hydrochloric acid medium .
S K Rajappa & **T. V. Venkatesha**
Turk. J. Chem, 2003, 27 189-196.
28. Electro deposition of zinc-nickel alloy from sulphate chloride bath.
K G Kariyanna ,Y. Arthoba Naik & **T. V. Venkatesha**
J Teaching and Research Chem. 2003, 10(2), 31-37.

29. Bright zinc nickel alloy plating from sulphate bath.
K G Kariyanna, Y. Arthoba Naik & **T. V. Venkatesha**
Transaction of SAEST, 2004,39, 39-43.
30. Electrodeposition of zinc nickel alloy from sulphate chloride bath.
K G Kariyanna, Y. Arthoba Naik & **T. V. Venkatesha**
J Ind, council of chemists. 2003 20(2) 43-47.
31. A new brightener for zinc plating from non-cyanide alkaline bath.
Y. Arthoba Naik & **T. V. Venkatesha**
Indian J. Engg and Mat. Sci., 2003, 10, 318-323.
32. Electrodeposition of zinc-nickel alloy from chloride bath.
K G Kariyanna, Y. Arthoba Naik & **T. V. Venkatesha**
Bulletin of electrochemistry, 2004, 20(1) 39-44.
33. A new condensation product for zinc plating from non-cyanide alkaline bath.
Y. Arthoba Naik & **T. V. Venkatesha**
Bulletin of Material Sci., 2005, 28, 495-501.
34. Chemical treatment of Zinc by a new chelating agent for corrosion protection.
Ganesha Achary, H. P. Sachin, Y. Arthoba Naik & **T. V. Venkatesha**
Bull. of Electrochemistry, 2005, 21, 241-245.
35. Benzimidazole –2 – one and its nitro derivatives as inhibitors for the corrosion of mild steel in hydrochloric acid .
A. V. Shanbhag, R. A. Prabhu, G. M. Kulkarni & **T. V. Venkatesha**
J.Electrochem.Soc.India, 2005, 21,9,403-409.
36. Spectral characterization of apatite formation on Poly(2-hydroxyethylMethacrylate)-TiO₂Nanocomposite film prepared by sol-gel process.
K. Prashantha, B. J. Rashmi, **T.V Venkatesha** & Joong Hee Lee
Spectrochimica Acta, 2005, 65, 340-344.
37. Acid zinc plating bath with a new brightener.
Y. Arthoba Naik & **T. V. Venkatesha**
J Teaching and Research Chem, 2005, 12(2) 15-23.

38. Electro polymerization of orthonitro aniline in hydrochloric acid medium using graphite electrodes.
H. P. Sachin, Ganesha Achary, Y. Arthoba Naik & **T. V. Venkatesha**
J Teaching and Research Chem, 2005, 12(2),1-7.
39. Electrodeposition of Zinc-iron alloy from a sulphate bath.
K. G. Kariyanna & **T. V. Venkatesha**
Bull. of Electrochemistry, 2005, 21, 547-553.
40. Benzimidazole –2 – one and its nitro derivatives as inhibitors for the corrosion of carbon steel in sulphuric acid.
A. V. Shanbhag, R. A. Prabhu, & **T. V. Venkatesha**
Bull. of Electrochemistry, 2005, 21, 403-409.
41. Electrochemical reduction of nitroacetophenone on different metal cathodes in acidic ethanol medium.
H. P. Sachin, Ganesha Achary, Y. Arthoba Naik & **T. V. Venkatesha**
Bulletin of Electorchemistry, 2006, 22(6), 249-252.
42. Resperidine as a corrosion inhibitor for mild steel in acid media.
R. A. Prabhu, A. V. Shanbhag, , & **T. V. Venkatesha**
Bulletin of Electorchemistry, 2006, 22(5) 225-233.
43. Effect of condensation product of glycyl-glycine and furfural on electrodeposition of zinc from sulphate bath.
H.B. Muralidhara, Y. Arthoba Naik & **T. V. Venklatesha**
Bulletin of Materials Science, 2006, 29, 497 –503.
44. Effect of nitro anilines on the corrosion of steel in sulphaic acid.
N Shankaresha, Y Arthba Naik, And **T. V. Venkatesha**
Journal of teaching and research Chemistry, 13 (2) (2006) 13 – 17.
45. Corrosion studies of carbon nanotubes-Zn composite coating.
B M Praveen, **T. V. Venkatesha** Y Arthoba Naik & K Prashantha
Surface coat and tech, 201, (2007) 5836- 5842.
46. Electrochemical preparation of orthophenylene diamine on different cathodes in sulphuric acid medium.
H. P. Sachin, Ganesha Achary, Y. Arthoba Naik & **T. V. Venkatesha**
Russian Journal of Electrochemistry, 2007, 43, 204-210.

47. Influence of tramadol [2-[(dimethylamino)methyl]-1-(3-methoxyphenyl)cyclohexanolhydrate] on corrosion inhibition of mild steel in acidic media.
R. A. Prabhu A. V. Shanbhag & **T. V. Venkatesha**
Journal of Applied. Electrochemistry 2007, 37, 491-497.
48. Study of Schiff's bases as surface modifiers for corrosion protection of copper in sulphuric acid medium.
Ganesha Achary, H. P. Sachin, Arthoba Naik & **T. V. Venkatesha**
Indian journal of chemical technology 2007,14 ,16-21.
49. Polynitroaniline as brightener for zinc-nickel alloy from non-cyanide sulphate bath.
H. P. Sachin, Ganesha Achary, Y. Arthoba Naik & **T. V. Venkatesha**
Bulletin of Materials Science, 2007, 30, 57 – 63.
50. Surface modification of mild steel and its corrosion study.
Ganesha Achary, H. P. Sachin, Y. Arthoba Naik & **T. V. Venkatesha**
Russian Journal of Electrochemistry, 2007, Vol. 43, No. 7, pp. 844–849.
51. Corrosion Behavior of Zn -TiO₂ Composite Coating.
B M Praveen, **T. V. Venkatesha** Y Arthoba Naik & K Prashantha
Synthesis & Reactivity Inorganic, Metal-Organic, & Nano-Metal Chemistry. 2007, 37,461–465.
52. Protection of mild steel against corrosion by polynitroaniline films.
H. P. Sachin, Ganesha Achary, Y. Arthoba Naik & **T. V. Venkatesha**
Materials Chemistry and Physics 2007, 104, 422-428.
53. Effect of a new condensation product on electrodeposition of zinc from a non-cyanide bath.
Ganesha Achary, H. P. Sachin, Y. Arthoba Naik & **T. V. Venkatesha**
Bulletin of Materials Science, 2007, 30, 219 – 224.
54. Electrodeposition of zinc from sulphate bath.
S. Shiva Kumar, H. P. Sachin, Ganesha Achary, Y. Arthoba Naik & **T. V. Venkatesha**.
Bulletin of Electrochemistry, 2006, 22, 371-377.
55. Corrosion inhibition studies of zinc and steel in hydrochloric acid medium.
B.M.Praveen, **T.V.Venkatesha**, S.K.Rajappa, K Vathsala & K O Nayana.
Kuvempu, Univ. Sci. J. 2006, 3(1) 88-95.
56. Influence of additives on electrodeposition of bright Zn-Ni alloy on mild steel from

acid sulphate bath.

S. Shiva Kumar, U. Manohara, Y. Arthoba Naik & **T. V. Venkatesha**
Bulletin of Materials Science, 2007, 30, 1-8.

57. Influence of additives on electrodeposition of bright Zn–Ni alloy on mild steel from acid sulphate bath.
S Shivakumara, U Manohar, Y Arthoba Naik and **T. V. Venkatesha**
Bulletin of Materials Science, 2007, 30, 455 – 462.
58. Effect of condensation product on electrodeposition of zinc on mild steel
S Shivakumara, U Manohar, Y Arthoba Naik and **T. V. Venkatesha**
Bulletin of Materials Science, 2007, 30, 463 – 468.
59. Corrosion behaviour of surface modified steel by condensation product
N. Shankaresha, **T. V. Venkatesha**, Ganesha Acharya, B. M. Praveen and Arthoba Naik
Bulletin of Electrochemistry, 2007, 23123-127.
60. Inhibitory effects of some imines on the corrosion of mild steel in hydrochloric acid solution, A.V. Shanbhag, R.A. Prabhu, G.M. Kulkarni, R.G. Kalkhambkar, **T.V. Venkatesha**, Indian journal of Chemical Technology, 14 (2007) 584-591.
61. Veratraldehyde as corrosion inhibitor for zinc in different acid medium, B.S. Shylesha, **T.V. Venkatesha**, B.M. Praveen, Der Pharma Chemica, 2(6) (2010) 295-301.
62. Corrosion inhibition of mild steel in acidic medium using hydrazide derivatives, A.V. Shanbhag, **T.V. Venkatesha**, R.A. Prabhu, R.G. Kalkhambkar, G.M. Kulkarni, J.Appl. Electrochem (38 (2008) 279-287.
63. A study on brightening and corrosive resistance property of electrodeposited zinc in non-cyanide alkaline bath, H.B. Muralidhara, Y. Arthoba Naik, H.P. Sachin, Ganesha Achary, **T.V. Venkatesha**, Indian Journal of Chemical Technology, 15 (2008) 259-265.
64. The corrosion inhibition of mild steel by 3 – formyl-8-hydroxyquinoline in hydrochloric acid medium.
Ganesha Achary, H. P. Sachin, Y. Arthoba Naik & **T. V. Venkatesha**
Materials Chemistry and Physics 2008, 107, 44-50.
65. Chemical treatment of zinc surface and its corrosion inhibition studies.
S.K.Rajappa, **T.V.Venkatesha**, & B.M.Praveen
Bull mater sci 31(2008) 37-41.
66. Electrodeposition and properties of Zn-nanosized TiO₂ composite coatings.
B.M. Praveen, **T.V. Venkatesha**
Applied surface science 2008 254 (8) 2418-2424.
67. Quinol-2-thione compounds as corrosion inhibitors for mild steel in acid solution.

R.A. Prabhu, **T.V. Venkatesha**, A.V. Shanbhag , B.M. Praveen ,
G.M. Kulkarni, R.G. Kalkhambkar
Materials chemistry and Physics 108 (2008) 283–289.

68. Effect of polyaniline functionalized carbon nanotubes addition on the positive temperature coefficient behavior of carbon black/high-density polyethylene nanocomposites.
K Prashantha, Joong Hee Lee B.J Rashmi, **T.V.Venkatesha**, K Vasantha Kumar Pai, Wang Xing,. IEEE Transactions on Nanotechnology 7(2) (2008) 233-238.
69. A Study on brightening property of newly synthesized compound in electroplating of zinc-nickel alloy.
H.B. Muralidhara, Y. Arthoba Naik, H P Sachin & **T. V. Venkatesha**
Indian journal of chemical technology 15 (2008) 155-162.
70. Influence of condensation product on electrodeposition of Zn-Mn alloy on steel.
S. Shivakumara, Y. Arthoba Naik, Ganesha Achary, H. P. Sachin, &**T. V. Venkatesha**
Indian journal of chemical technology 15 (2008) 29-35.
71. An electroactive co-polymer as corrosion inhibitor for steel in sulphuric acid medium.
Ganesha Achary, Y. Arthoba Naik, S. Vijay Kumar, **T.V. Venkatesha**, B.S. Sherigara
Applied Surface Science 254 (2008) 5569–5573.
72. Inhibition effects of some Schiff's bases on the corrosion of mild steel in hydrochloric acid solution.
R.A. Prabhu , **T.V. Venkatesha** , A.V. Shanbhag c, G.M. Kulkarni , R.G. Kalkhambkar
Corrosion Science 50 (2008)3356-3362.
73. Generation and corrosion behaviour of Zn- Nano sized carbon black composite coating.
B. M. Praveen and **T. V. Venkatesha**
International journal of Electrochemical Science 2009, 4 258-266.
74. Metol as corrosion inhibitor for steel.
B. M. Praveen and **T. V. Venkatesha**
International journal of Electrochemical Science 2009, 4 267-275.
75. Carmine and Fast Green as Corrosion Inhibitors for Mild Steel in Hydrochloric Acid Solution.
R.A. Prabhu, **T.V. Venkatesha**, and A.V. Shanbhagc
J. Iran. Chem. Soc., Vol. 6 (2009) 353-363.
76. Electrodeposition and properties of Zn-Ni-CNT composite coatings.
B.M. Praveen and **T.V. Venkatesha**
J. alloys and compounds, 482 (2009) 53-57.
77. Detection of uric acid in the presence of Dopamine and high concentration of Ascorbic acid using PDDA Modified Graphite Electrode.

H Manjunatha, D H Nagraju, G S Suresh, **T. V. Venkatesha**,
Electroanalysis, 21 (2009) 20, 2198-2206. (Wiley Inter Science)

78. Influence of Condensation Product on Bright Nanocrystalline Zinc Electrodeposition and its Properties,
K O Nayana, **T. V. Venkatesha**
Synthesis and Reactivity in Inorganic, Metal-Organic, and Nano-Metal Chemistry (2010) 40(2010)170–178.
79. A Hybrid electrochemical thermal method for the preparation of large ZnO nanoparticles.
K G Chandrappa, **T. V. Venkatesha**, K Vathsala, C.Shivakumara
Journal of nanoparticle research 12(2010) 2667-2678.
80. Simultaneous determination of ascorbic acid, dopamine and uric acid using polystyrene sulfonate wrapped multiwalled carbon nanotubes bound to graphite electrode through layer-by-layer technique.
R Manjunatha, G S Suresh, Jose Savio Melo, Stanislaus F. D'Souza, **T. V. Venkatesha**
Sensors and Actuators B 145 (2010) 643–650.
81. Electrochemical generation of Zn-chitosan composite coating on mild steel and its corrosion Studies.
K Vathsala, **T. V. Venkatesha**, B. M. Praveen, K O Nayana,
Engineering 2(2010) 118-122.
82. Development of electroless Ni-Zn-P/ nanoTiO₂ composit coatings and their properties.
S Ranganatha, **T. V. Venkatesha**, K Vathsala
Applied Surface Science, 256 (2010) 7377–7383.
83. Synergistic effect of halide ions on improving corrosion inhibition behavior of benzisothiazole-3-piperizine hydrochloride on mild steel in 0.5 M H₂SO₄ medium.
M.K. Pavithra, **T.V. Venkatesha**, K. Vathsala, K.O. Nayana
Corr. Sci.52 (2010) 3811–3819.
84. Electrode materials for aqueous rechargeable lithium batteries.
H. Manjunatha, G. S. Suresh & **T. V. Venkatesha**
J Solid State Electrochem (2011) 15:431–445.
85. The study of lithium ion de-insertion/insertion in LiMn₂O₄ and determination of kinetic parameters in aqueous Li₂SO₄ solution using electrochemical impedance spectroscopy.
H. Manjunatha, K.C. Mahesh, G.S. Suresh and **T.V. Venkatesha**
Electrochimica Acta, 56 (2011) 1439-1446.
86. Generation of Nanocrystalline NiO particles by solution combustion method and its Zn-NiO composite coating for corrosion protection.

K.G. Chandrappa, **T.V. Venkatesha**, K.O. Nayana and M.K. Punith Kumar
Materials and Corrosion , 62, 2011, No:9999. (DOI:10.1002/maco.201005966)

87. Functionalized-graphene modified graphite electrode for the selective determination of dopamine in presence of uric acid and ascorbic acid.
MalledevaruMallesha, RevanasiddappaManjunatha, C. Nethravathi, GurukarShivappa Suresh, Michael Rajamathi, Jose SavioMelo & **ThimmappaVenkatarangaiahVenkatesha**, Bioelectrochemistry (Willey interscience) 81 (2011) 104-108.
88. Synergistic effect of additives on bright nanocrystalline zinc electrodeposition.
K. O. Nayana, **T. V. Venkatesha**, B. M. Praveen, K. Vathsala
J Appl Electrochem, 41(2011) 39–49.
89. Ziprasidone as a corrosion inhibitor for zinc in different acid medium.
B.S. Shylesha, **T.V. Venkatesha** and B. M. Praveen
J Chem Pharm Res, 3 (2011) 501-507.
90. Treatment of aqueous and simulated waste water of luganil blue N dye –A new electrochemical approach.
SaralaPuttappa, **Venkatesha ThimmappaVenkatarangaiah**
J. Environ. Tech. 32 (2011) 1939-1945.
91. Electrodeposition and corrosion behavior of Zn-Ni and Zn-Ni-Fe₂O₃ coatings.
Channagiri Mohan Kumar Praveen Kumar, **ThimmappaVenkatarangaiahVenkatesha**, KanagalasaraVathsala, KudlurOnkarappaNayana
J. Coat. Technol. Res. (Springer) DOI:10.1007/s11998-011-9322-5
92. A new addition agent for bright zinc electrodeposition from acid bath, H. Honnesha, M. Ramaiah, N.K. Srinivasamurthy, K.O. Nayana, K. Vathsala, C.M. Praveen kumar, T.V. Venkatesha, J.T.R. Chem. 15 (1) 1-7 (2009).
93. New Electroactive compounds as corrosion inhibitors for zinc in acidic medium.
B.S. Shylesha, **T.V. Venkatesha** and B. M. Praveen
Advances in Applied Science Research 2 (2011) 333-341
94. Zn - ZrO₂ nanocomposite coatings: Electrodeposition and evaluation of corrosion resistance.
Kanagalasara Vathsala and **Thimmappa Venkatarangaiah Venkatesha**
J. Applied Surface Science (Elsevier) 257 (21) (2011) 8929-8936.
95. Studies on electrodeposition of Zn-MoS₂ nanocomposite coatings on mild steel and its Properties.

Vathsala Kanagalasara and **Thimmappa Venkatarangaiah Venkatesha**.
J Solid State Electrochem 16 (3) (2012) 993-1001.

96. Electrochemical Bulk synthesis and characterization of hexagonal shaped CuO nanoparticles.
K.G. Chandrappa, **T.V. Venkatesha**
Journal of Experimental NanoScience (Taylor and Francis) 4 (1) 14-24 (2012)
97. Electrodeposition and Corrosion Resistance Properties of Zn-Ni/TiO₂ Nano Composite.
B.M. Praveen and **T.V. Venkatesha**
International Journal of Electrochemistry (Hindawi) 2011, Article ID 261407
98. Corrosion Inhibition Effect of Substituted Quinoline and Its Condensation Products on Mild Steel in Acidic Media.
Bidare Shivayogiraju Shylesha, **Thimmappa Venkatarangaiah Venkatesha**,
Beekannahalli Mokshanatha Praveen, Kanakapura Venkatachala Srinath
Anal. Bioanal. Electrochem., Vol. 3, No. 3, 2011, 249-260.
99. Veratraldehyde as corrosion inhibitor for mild steel in different acid medium.
B S Shylesha, **T. V. Venkatesha**, G Harshini, B M Praveen
Journal of Chemistry and Chemical Engineering 4(8)(2010)1934-7375.
100. New schiff.s bases as corrosion inhibitor for mild steel in HCl medium.
T.V.Venkatesha, K.V.Srinath, B.M.Praveen
Materials Science Vol. 7, Issue 1, 2011
101. Inhibition of corrosion of steel in hydrochloric acid solution by some organic molecules containing the methyl thiophenyl moiety.
S E Nataraja, **T. V. Venkatesha**, K Manjunatha, Bhoja Poojari, M K Pavithra, H C Tondon
Corrosion science, 53(8) (2011) 2651-2659
102. Corrosion inhibition of steel in acid media by S-benzylthiuroniumchloride.
S E Nataraja, **T. V. Venkatesha**, B M Praveena
Derpharma Chemica, 3(1) (2011)388-398.
103. New brightener for Zn-Fe alloy plating from sulphate bath.
T.V. Venkatesha and **B.M. Praveen**
International Journal of Electrochemistry (Hindawi) Accepted on 3 June 2011
104. Fabrication, characterization and electrochemical corrosion behavior of Zn-TiO₂ Composite coatings.

- M. K. Punith Kumar, **T.V. Venkatesha**, M.K. Pavithra, A. Nithyananda Shetty
Phys. Scr. 84 (2011) 035601 (pp. 1-10)
105. Characterization and corrosion behavior of electrodeposited Zn and Zn-BN coatings.
C.M. Praveen kumar and **T.V.Venkatesha**
Synthesis and Reactivity in Inorganic, Metal-Organic, and Nano-Metal Chemistry,
42 (2012) 351-359.
106. Quantum chemical and Experimental characterisation of the effect of ziprasidone on the corrosion inhibition of steel in acid media.
S.E. Nataraja, **T.V. Venkaesha**, H.C. Tandon, B.S. Shylesha
Corrosion Science, 53(12), (2011) 4109-4117.
107. Zn-WS₂ nanocomposite coatings on mild steel: Electrochemical aspects.
K. Vathsala, **T. V.Venkatesha**, S. Ranganatha, M. K. Punith Kumar
Synthesis and Reactivity in Inorganic, Metal-Organic, and Nano-Metal Chemistry,
42 (2012) 779–785.
108. Inhibition effects of acetyl coumarines and thiazole derivatives on corrosion of zinc in acidic medium.
A. V. Shanbhag, **T. V. Venkatesha**, R. A. Prabhu and B. M. Praveen
Bull. Mater. Sci., 34(3) (2011) 571-576.
109. Direct electrochemistry of cholesterol oxidase on MWCNT's
R. Manjunatha, D.H. Nagaraju, G.S. Suresh J.S Melo, S.F.D'Souza, **T.V. Venkatesha**
Journal of Electroanalytical Chemistry 651 (2011) 24-29.
110. Kinetic and Mechanistic studies on the Oxidation of Tinidazole By Bromamine-T (Bat) in HCl medium
P.R. Rangaraju, **T.V.Venkatesha**, R. Ramachandrappa, B.M Praveen.
Research Journal of Pharmaceutical. Biological and Chemical Sciences. 2(4), (2011), 947-957.
111. Kinetics of electrochemical insertion of lithium ion into LiFePO₄ from aqueous 2M Li₂SO₄ solution studied by potentiostatic intermittent titration technique
H. Manjunatha, **T.V.Venkatesha**, G.S Suresh.
Electrochimica Acta 58 (2011) 247-257.
112. Nano-Zinc Oxide particles as potential destructive agents on bacterial pathogens; E. coli and staphylococcus aureus.
John Barnabas, K. V Ramesh, Mandakini Das, S. Saraswathi, **T. V. Venkatesha** and H.B Naveen, International Journal of current research 2011, 3(10):249-252.
113. Surface modification of zinc by new organic compounds and its corrosion study.
B.M. Praveen, **T.V.Venkatesha**, S.K Rajappa, H.P Sachin, K. Vathsala, K.O. Nayana

Der Pharma Chemica, 2011, 3 (6):565-575.

114. Corrosion Inhibition studies of mild steel by new inhibitor in different corrosive medium
B.S. Shylesha, **T. V. Venkatesha** and B. M. Praveen
Research Journal of Chemical Sciences, 2011, 1 (7) 46-50.
115. Synergistic effects of additives on morphology, texture and discharge mechanism of zinc during electrodeposition.
K.O. Nayana, **T.V. Venkatesha**
Journal of electroanalytical chemistry 663 (2011) 98-107.
116. New brightener for Zn-Ni alloy plating from sulphate bath.
B.M Praveen, **T.V.Venkatesha**
Chemical engineering communications., 199 (2012) 812-822.
117. Effect of surfactants on co-deposition of B₄C nanoparticles in Zn matrix by electrodeposition and its corrosion behavior
C. M Praveen Kumar, **T.V.Venkatesha**, K.G Chandrappa
Surface and Coating Technology, 206 (2012) 2249-2257.
118. Anticorrosive electroless Ni-P films for mild steel materials.
S. Ranganatha, **T.V Venkatesha**
Anti-corrosion methods and materials, 59 (2) 2012, 69-75.
119. Pocess and properties of of electroless Ni-Cu-ZrO₂ nanocomposite coating.
S.Ranganatha, **T.V.Venkatesha**, K.Vathsala
Material Research Bulletin, 2012, 47, 635-645.
120. Studies on preparation and properties of electroless Ni-W-P alloy coatings and its nano MoS₂ composite,
S Ranganatha and **T.V.Venkatesha**,
Physica Scripta, 2012, 85, 035601.
121. Electrochemical Synthesis and Photocatalytic Property of Zinc oxide Nanoparticles
K. G. Chandrappa, **T. V. Venkatesha**
Nano-Micro Letters, Vol 4, No 1 (2012)
122. A study on corrosion behavior of electrodeposited Zn-rutile TiO₂ composite coatings
M.K. Punith Kumar , **T.V. Venkatesha**, M.K. Pavithra, A. Nithyananda Shetty
Synthesis and Reactivity in Inorganic, Metal-Organic, and Nano-Metal Chemistry,
Accepted on 25th March 2012.
123. Inhibition of mild steel corrosion by Rabeprazole sulfide.
M. K. Pavithra, **T. V. Venkatesha**, M. K. Punith Kumar and H. C. Tondon.
Corrosion Science 60 (2012) 104-111.
124. Computational and experimental evaluation of the acid corrosion inhibition of steel by Tacrine, S. E. Nataraja, **T. V. Venkatesha** and H. C. Tondon.

Corrosion Science 60 (2012) 214-223.

125. Electrochemical degradation of p-aminobenzoic acid β naphthol azo dye in alkaline Solution, P. Sarala and **T. V. Venkatesha**.
Journal of Environmental Chemistry and Ecotoxicology 4(6) 22 March 2012, 116-123.
126. Study of lithium ion intercalation/de-intercalation into $\text{LiNi}_{1/3}\text{Mn}_{1/3}\text{Co}_{1/3}\text{O}_2$ in aqueous solution using electrochemical impedance spectroscopy.
K. C. Mahesh, H. Manjunatha, **T. V. Venkatesha**, G. S. Suresh. Journal of Solid State Electrochemistry. 16 (2012), 3011–3025. DOI 10.1007/s10008-012-1739-y
127. Graphene-carbon Nanotubes modified graphite electrode for the determination of nicotinamide adenine dinucleotide and fabrication of alcohol biosensor.
Simson Prasannakumar, Revanasiddappa Manjunatha, C. Nethravathi, Gurukar Shivappa Suresh, Micheal Rajamathi, **Thimmappa Venkatarangaiah Venkatesha**.
Journal of Solid State Electrochemistry, DOI 10.1007/s10008-012-1754-z
128. Electroless Ni-W-P coatings and its nano- WS_2 composite: Preparation and properties
S. Ranganatha, **Venkatesha T.V**, Kanagalasara Vathsala.
Journal of Industrial & Engineering Chemistry Research, 51 (2012) 7932-40
129. Metol as corrosion inhibitor for zinc.
B M Praveen, **T V Venkatesha**, K G Chandrappa, S E Nataraj, M K Punith Kumar, S Ranganath, C M Praveen Kumar, P Sarala and M K Pavithra.
Transactions of the Indian Institute of Metals, (June 2012) 65(3): 297-302.
130. Generation of $\gamma\text{-Al}_2\text{O}_3$ microparticles by Hybrid electrochemical-thermal method and its Zn- $\gamma\text{-Al}_2\text{O}_3$ composite thin films for corrosion protection
K. G. Chandrappa, **T. V. Venkatesha**
J. Am. Ceram. Soc, 1-9, 2012.
131. Ni - Si_3N_4 composite electrodeposition, characterization and corrosion behavior
C.M. Praveen kumar and **T.V.Venkatesha**
Physica Scripta, 86 (2012) 015804 (8pp).
Article ID: PS/418256/ PAP.
132. Generation of Co_3O_4 microparticles by solution combustion method and its Zn- Co_3O_4 composite thin films for corrosion protection, K.G. Chandrappa, **T.V. Venkatesha**,
J. Alloys. Journal of American ceramic society, (2012) 1-9.
133. Electrochemical studies on Zn/nano CeO_2 electrodeposited composite coating, S. Rangantha, **T.V. Venkatesha**, K. Vathsala, M.K. Punith kumar,
Surf. Coat. Technol.,208 (2012) 64-72.
134. Kinetics and Mechanistic Investigation on oxidation of Cetirizine dihydrochloride (CTZ) by Bromamine-T (BAT) in HCl medium, Rangaraju P R, **T.V. Venkatesha**, [RJPBCS Volume

135. Development of high performance electroless Ni-P-HNT composite coatings, S. Ranganatha, **T.V. Venkatesha**, K. Vathsala, Appl. Surf. Sci., 2012
136. Generation of nanostructured CuO by electrochemical method and its Zn-Ni-CuO Composite thin films for corrosion protection, Mater. Corro.,
137. Electrochemical study of the corrosion behavior of zinc surface treated with a new organic chelating inhibitor, R.A. Prabhu, **T.V. Venkatesha**, B.M. Praveen, ISRN Metallurgy, Article. ID 940107, (2012) 1-7.
138. Electrochemical characterization of polypyrrole-LiNi_{1/3}Mn_{1/3}Co_{1/3}O₂ composite cathode material for aqueous rechargeable lithium batteries, R.B. Shivashankaraiah, H. Manjunath, K.C. Mahesh, G.S. Suresh, **T.V. Venkatesha**, J.Solid. State. Electrochem. 16 (2012) 1279–1290. DOI: 10.1007/s10008-011-1520-7.
139. Kinetics of lithium insertion into LiMnPO₄ from aqueous saturated LiOH: A study using galvanostatic and potentiostatic intermittent titration techniques, H. Manjunatha, K.C. Mahesh, G.S. Suresh, **T.V. Venkatesha**, Electrochim. Acta. 80 (2012) 269–281.
140. Electrocatalytic oxidation of NADH on functionalized grapheme modified graphite electrode, Simson Prasanna kumar, Revanasiddappa Manjunatha, C. Nethravathi, Gurukar shivappa suresh, Michael Rajamathi, **Thimmappa Venkatarangaiah Venkatesha**, Electroanalysis, 23, No.4, (2011) 842-849.
141. Electrochemical detection of acetaminophen on the functionalized MWCNTs modified electrode using layer-by-layer technique, R. Manjunatha, D.H. Nagarju, Gurukar Shivappa, Suresh, Jose Savio Melo, Stanislaus F. D'Souza, **Thimmappa Venkatarangaiah Venkatesha**, Electrochim. Acta., 56 (2011) 6619-6627.
142. Direct electrochemical non-enzymatic assay of glucose using functionalized graphene, M. Mallesha, R. Manjunatha, G.S. Suresh, Jose Savio Melo, S.F.D'souza, **T.V. Venkatesha**, J Solid State Electrochemistry, 16 (2012) 2675–2681, DOI 10.1007/s10008-012-1674-y.
143. An amperometric bienzymatic cholesterol biosensor based on functionalized graphene modified electrode and its electrocatalytic activity towards total cholesterol determination, R. Manjunatha, G.S. Suresh, Jose Savio Melo, Stanislaus F. D'Souza, **T.V. Venkatesha**, Talanta, (2012).

144. Electrochemical degradation of Acid red I dye and its treatment by UV light.
Sarala P and **T. V Venkatesha**,
Toxicological and environmental chemistry 94 (2012) 1646-1656
145. “Synthesis of $\text{LiNi}_{1/3}\text{Mn}_{1/3}\text{Co}_{1/3}\text{O}_2$ Cathode Material and its Electrochemical Characterization in an Aqueous Electrolyte”
K. C. Mahesh, H. Manjunatha, R. B. Shivashankaraiah, G. S. Suresh, **T. V. Venkatesha**,
J. Electrochem. Soc. 159 (2012) A1040-A1047
146. “Synthesis and Electrochemical Characterization of $\text{LiNi}_{0.8}\text{Co}_{0.2}\text{O}_2$ as Cathode Material for Aqueous Rechargeable Lithium Batteries”
K. C. Mahesh, G. S. Suresh, A. J. Bhattacharyya, **T. V. Venkatesha**,
J. Electrochem. Soc. 159 (2012), A571-A578.
147. “Electrochemical Characterization of $\text{LiTi}_2(\text{PO}_4)_3$ as Anode Material for Aqueous Rechargeable Lithium Batteries”
R. B. Shivashankaraiah, H. Manjunatha, K. C. Mahesh, G. S. Suresh, **T. V. Venkatesha**, J.
Electrochem. Soc. 159 (2012) A1074-A1082.
148. “An amperometric bienzymatic cholesterol biosensor based on functionalized graphene modified electrode and its electrocatalytic activity towards total cholesterol determination”
R. Manjunatha, G. S. Suresh, J. S.Melo, S. F. D'Souza, **T. V. Venkatesha**,
Talanta, 15 (2012) 302–309.
149. “Electrochemical studies of LiMnPO_4 as aqueous rechargeable lithium-ion battery electrode”
H. Manjunatha, **T. V. Venkatesha**, G. S. Suresh,
J Solid State Electrochem 16 (2012) 1941–1952
150. “Electrochemical behavior of $\text{Li}[\text{Li}_{0.2}\text{Co}_{0.3}\text{Mn}_{0.5}]\text{O}_2$ as cathode material in Li_2SO_4 aqueous Electrolyte”
K. C. Mahesh, G. S. Suresh, **T. V. Venkatesha**,
J Solid State Electrochem 16 (2012) 3559-3571
151. “Graphene-carbon nanotubes modified graphite electrode for the determination of nicotinamide adenine dinucleotide and fabrication of alcohol biosensor”
S. Prasannakumar, R. Manjunatha, C. Nethravathi, G. S. Suresh, M. Rajamathi, **T. V. Venkatesha**,
J Solid State Electrochem 16 (2012) 3189–3199
152. “Non-enzymatic Reduction of Hydrogen Peroxide Sensor Based on (Polyaniline-polystyrene Sulphonate) – Carboxylated Graphene Modified Graphite Electrode”
S. Prasannakumar, R. Manjunatha, C. Nethravathi, G. S. Suresh, M. Rajamathi, **T. V. Venkatesha**,
Portugaliae Electrochimica Acta., 2012, 30(6), 371-383

153. "Polystyrene sulphonate wrapped multiwalled carbon nanotubes modified graphite electrode for simultaneous determination of ascorbic acid, dopamine and uric acid"
S. Prasannakumar, R. Manjunatha, **T. V. Venkatesha**, G. S. Suresh,
Russian Journal of Electrochemistry 49 (2013) 299-306
154. " Synthesis, Characterisation, Docking Analysis and Biological Evaluation of *bis*(*p*-dimethylaminobenzylidene)-methyclohexanone",
S. Shalini C. R. Girija, Prashantha Karunakara, M. M. Jotani, K.N. Venugopala and **T.V. Venkatesha**,
Indian journal of Chemistry (Sec-B), February (2013), Vol52B(2) PP282-288
155. " 3-(3,4-Dimethoxybenzyl)chroman-4-one", S. Shalini, C. R. Girija, Lalitha Simon, K. K. Srinivasan, **T. V. Venkatesha** and M. M. Jotani
Acta Cryst. (2013). E69, o241
156. " The Weak Intermolecular Interactions in 2,6-Bis(4-Isopropylbenzylidene) Cyclohexanone: Insights from Crystallographic Studies and Semi-Empirical Quantum Chemical Calculations",
S. Shalini, C. R. Girija, **T.V. Venkatesha**, M.M. Jotani, M. Srinivasa Murthy, K.N. Venugopala ,
Indian Journal of Advances in Chemical Science 1 (2) (2013) 88-93
157. "rac- 3-(4-hydroxybenzyl)chroman-4-one",
S. Shalini, C. R. Girija, Lalitha Simon, K. K. Srinivasan and **T. V. Venkatesha**,
Acta Cryst. (2013). E69, o1011–o1012.
158. Acalypha torta leaf extract as green corrosion inhibitor for mild steel in Hydrochloric acid solution,
M.K. Pavithra, **T.V. Venkatesha**, Punith kumar M.K., B.S. Shylesha, Industrial and Engineering chemistry Research, 52 (2013) 722-728.
159. Inhibiting effects of Rabeprazole sulfide on the corrosion of mild steel in acidic chloride solution.
Pavithra M K, **T.V. Venkatesha**, Punith kumar M.K.,
International Journal of Electrochemistry Accepted.
160. Benzimidazole derivatives as corrosion inhibitors for Zn in Acid Solution.
A.V. Shanbhag, **T.V. Venkatesha**, B.M. Praveen
Protection of metals and Physical Chemistry of Surfaces. Accepted
161. Electrodeposition of Zn-Ni multiwalled carbon nanotube nanocomposites and their properties,
Ranganatha Sudhakar and **Venkarangaiah T. Venkatesha**,
Industrial and Engineering chemistry Research, 52 (2013) 6422-6429.

162. Bulk electroorganic synthesis of schiff's base and its electrical behavior,
S. A. Shreekanta, **T. V. Venkatesha**, P. Parameswara Naik and N. Murugendrappa,
International journal of chemical sciences: 11(1) (2013) 529-538
163. Influence of additive on nanocrystalline, bright Zn–Fe alloy electrodeposition and its properties, K.O. Nayana, **T.V.Venkatesha**, K G Chandrappa, Surf. Coat. Technol. Accepted.
164. Electrochemical bulk synthesis and characterisation of hexagonal-shaped CuO nanoparticles
Chandrappa, K.G., Venkatesha, T.V.
Journal of Experimental Nanoscience 8 (4) (2013) 516-532
165. Antibacterial activity of CaSO₄ Nanorods prepared via Hydrothermal method compared to bulk CaSO₄
Durga Prasad, H. Nagabhushana, C.R. Girija, T. V. Venkatesha, B.M. Nagabhushana,
Journal of Nano Science, NanoEngineering and Applications, 3 (1) ISSN: 2231-1777
166. Nanosructured TiO₂ prepared through Sol-Gel method enhances the activity of antibiotics against Gram positive bacteria.
Durga :Prasad, Nagaraja Kottam, H. Nagabhushana, C. R. Girija, T. V. Venkatesha, B. M. Nagabhushana, Journal of Nanoscience, NanoEngineering and Applications, 2 (1) (2012) 6-12
167. Cytotoxicity of CeO₂ Nanoparticles for Gram negative, Gram positive bacteria: Antibacterial effect.
Durga Prasad, A. A. Jaagidaar, C. R. Girija, B. M. Nagabhushana, **T. V. Venkatesha** (15) (1), ISSN: 0973-418X

13. Participate Experience in Academic Meetings

Sl. No.	Conference/ Seminar/Summer Institute/workshop, etc.	Sponsors	Duration and year	Title of the paper (if presented)
1	Exposed to different types of metal plating and analysis of plating baths	ECSI , IISc, B'lore	08 days, 1986	--
2	Lectures on basic electrochemistry	SAEST, CECRI	04 days, 1985	--
3	Winter school on application of biochemistry	Regional Engineering college Tiruchirapalli	14 day, 1989	--
4	26 th Annual Convention of Chemist	Indian Chemical Society	04 days, 1989	Electroplating of Nickel-Zinc alloy from sulfate bath
5	27 th annual convention of Chemist	Indian Chemical Society	04 days, 1990	Electroplating of zinc on different carbon steel from sulphate type bath
6	Winter school on polymers	IIT, Delhi	12 day, 1990	
7	Summer school on growth and characterization of crystals	CGCm Ann University, Madaras	12 days, 1991	
8	Professional development, training programme for teachers	KREC Surathkal	5 days 1991	
9	Summer school on food process and	IIT, Kharagpur	13 days, 1992	

	preservation engineering			
10	11 th groupo monitoring workshop, DST, New Delhi.	IIT, Bombay	09 days, 1993	Development of industrial zinc electroplating from chloride type bath
11	14 th group conference of chemists	Indian chemical society	03 days, 1995	Industrial zinc electroplating-hull cell studies
12	Summer school on data analysis and system design	KREC Surthkal	13 days, 1995	Hull cell studies of zinc nickel alloy plating
13	16 th annual conference ICC	Indian council of chemists	03 days, 1997	
14	Winter school on industry institutional planning	Tamil nadu polytechnic Madurai	16 days, 1997	
15	Winter school on industry institute partnership	Tamil nadu Polytechnic Madurai	16 days, 1997	
16	Winter school on industry institute partnership	KREC Surathkal	07 days, 1997	
17	Summer school on quality assurance in education	KREC Surathkal	06 days, 1997	
18	Summer school on Mechatronics	KREC Surathkal	23 days, 1997	
19	National workshop on recent trends in micro analytical techniques	Kuvempu University	04 days, 1998	
20	Industrial Entrepreneurship motivation programmer	Kuvempu University	01 day, 1999	
21	National seminar on polymer technology for industry and society	Kuvempu University	02 days, 2000	Industrial zinc electrodeposition from acid electrolyte

22	National symposium on Electrochemical Science and Technology-2000	ECSI, IISc., Bangalore	02 days,2000	Effect of electroactive compounds on zinc plating from different baths
23	19 th Annual conference on Indian Council of Chemists	Kuvempu University	03 days 2001	Effect of Semicarbazide and Glutaraldehyde on zinc electrodeposition from sulphate –Chloride bath
24	National Symposium on Electrochemical Science and Technology-2001	ECSI, IISc Bangalore	03 days, 2001	Effect of 3,4,5-trimethoxy benzaldehyde on electrodeposition from sulphate Chloride bath
25	38 th Annual convention of Chemists 2001, Jodhpur, India	Indian Chemical Society	04 days, 2001	
26	Concise course in Advanced Instrumental Chromatographic Techniques	ICC & Kuvempu University	01 day 2001	
27	Chemistry for Changing times	Kuvepmu University	01 day 2002	Electrochemical properties of bright zinc deposits obtained from acid sulphate bath ²⁸
28	Frontier Areas in Chemistry	Kuvempu University	01 day 2002	Zinc plating form non-cyanide Alkaline bath
29	National symposium on Electrochemical sciences and technology-2002	ECSI, IISc, Bangalore	02 days, 2002	
30	21 st Annual conference of ICC, Jabalpur (MP)	Indian Council of Chemists	03 days, 2002	A study on corrosion of steel and zinc in an electroplating acid bath
31	19 th Annual conference of ICC at Shankaraghatta	ICC and Kuvempu University Shankaraghatta	03 days, 2000	Modification of Zinc surface by a new organic chelating compounds and its corrosion studies
32	National Symposium on	ECSI, IISc, Bangalore	02 days, 2001	Corrosion inhibition studies on mild steel and

	Electrochemical Science and Technology-2001			in hydrochloric acid medium
33	38 th Annual Convention of Chemists 2001, Jodhpur, India	Indian Chemical Society	04 days, 2001	Electrodeposition of bright zinc from chloride-sulfate bath
34	18 th Annual conference of ICC, Jalagaon	ICC	03 days	
35	National Convention of Electrochemists-10, Karaikudi	NCE, CECRI	02 days	Development of bright zinc electroplating bath: A Hull cell study
36	How to develop, Validate and Trouble shoot GC methods	ASC and CSI	01 day, 2001	
37	Campus diversity initiative	Kuvempu University	03 days, 2001	
38	20 th Annual conference of ICC	ICC, Mysore University	03 days, 2001	Electrodeposition of Zn-Ni alloy from sulphate bath
39	International workshop on microwave synthesis of bioactive molecules	Nargund college of Pharmacy	01 day, 2001	
40	Refresher Course	Mangalore University	22 days, 2001	
41	Refresher Course	Bangalore University	21 days, 2003	
42	Refresher Course	Kuvempu University	21 days, 2004	
43	Work shop on organic chemistry	Kuvempu university	01 day, 2003	

44	Science club	J.C.B.M college, Sringeri. Chemical Indian Heritage Academy Society	01 day, 2004	
45	Multimedia training	Kuvempu university	03 days, 2004	
46	Refresher Course	Kuvempu University	23 days, 2004	
47	Recent advances in electrochemical and surface sciences for industry and society	Kuvempu University	02 days 2004 (Dec 3 rd & 4 th)	Electrochemical reduction of m- Nitrobenzaldehyde and benzophenone in acidic aqueous ethanol medium, Chemical surface modification of zinc by some azo dyes, Electrodeposition of Zn- Ni alloy from non- cyanide sulphate bath Corrosion inhibition by the imine compounds for steel in acid medium, Surface modification of Cu by chemical method and its corrosion study in sulphuric acid
48	National seminar on frontiers of chemical sciences	Aurangabad	02 days 2005 (March 12- 13)	
49	23 rd Annual conference of ICC	K.C.College, Mumbai	03 days, 2004	Electrochemical reduction of compounds on different metal electrodes
50	National Seminar on "Recent advances in Electrochemical and Surface Sciences for Industry and	Kuvempu University	02 days 3 rd and 4 th Dec 2004	Electrochemical Synthesis of Polynitroaniline, Surface treatment of Zinc corrosion protection by a new chelating agent

	Society”			<p>Electrochemical reduction of m-nitrobenzaldehyde and benzophenone on tin cathode in acidic ethanol medium,</p> <p>Electrodeposition of Zn-Ni alloy from Non-cyanide-sulfate bath,</p> <p>Chemical Surface modification of Zinc by some Azo dyes</p>
51	National conference on Electroics and Electrode kinetics	Jiwaji Univeristy Gwalior	03 days, 25 th to 27 th Nov, 2005	<p>Corrosion inhibition by the Imine compounds for steel in acid medium,</p> <p>Electrocatalytic activity of cathodes in electrochemical reduction of aromatic nitrocompounds,</p> <p>Zn-Ni alloy electrodeposition from chloride baths.</p> <p>Electrochemical reduction of carbonyl group of naphthaldehyde and anthranilic acid on different metal cathodes</p>
52	National symposium on electrochemical science and technology	IISc, Bangalore	02 days, 22 nd and 23 rd July-2005	<p>Electrochemical preparation of orthophenylenylene diamine on different metal cathode sin sulphuric acid medium</p>
53	National conference on chemical sciences for industry and society	Dept. of Ind.Chemistry, Kuvempu University	03 days, Jan-2006	<p>Electrochemical modification of mild steel surface and its corrosion study,</p> <p>Influence of metal on the dissolution of iron and zinc in HCl</p> <p>inhibition effect of hydrazide on corrosion of mild steel in HCl,</p> <p>A new brightner for Zn-Ni alloy plating from</p>

				acid chloride bath A new electrochemical reduced product as a brightner in electroplating of Zn-Ni alloy from sulfate bath, New condensation products viz., Schiff's bases as corrosion inhibitors on steel in 2N HCl medium
54	Seminar on DNA: past, present and future	D.V.S. college Shimoga	2005	
55	A seminar on "Malenadu pranthiyada oushadha matthu sugandha sasyagala bele matthu balake haagu rasa vishleshane"	Sahyadri Science college, Shimoga	Dec 18-19, 2004	
56	A lecture given on the topic of electrochemistry at the refresher course in Industrial Chemistry	Kuvempu University	Nov 24-Dec-14, 2004	Basic electrochemistry and its applications
57	IPR workshop	Kuvempu University	Jan 29-30, 2005	
58	National symposium on electrochemical science and technology	IISc Bangalore	21 st to 22 nd july 2006	Corrosion studies of carbon nanotubes – Zn Composite coating
59	International Conference on Nano-Materials for Electronics	(C-MET) Pune	Nov 27 – 29 2006	Corrosion behaviour of TiO ₂ -Zn Composite coating

60	National Conference on Emerging Areas in Chemical and Biological Sciences	Kuvempu University (13 papers presented)	March 23-24, 2007	Corrosion Behavior of zinc-cobalt-carbon particles composite coating, The Chemical Treatment of Zinc Surface and its corrosion inhibition Studies, Influence of Additives on Electrodeposition of Bright Zn-Ni alloy on mild steel, A Studies on Zn-Ni-CNTs Composite Coatings, Chloroquinolines as Inhibitors for Mild Steel Corrosion in hydrochloric acid solution, New Electroactive compounds corrosion inhibitors for mild steel in acid solution.
61	Fourteenth National Congress On Corrosion Control	Corrosion Council of India	18-20, Sept 2008	Preparation of Zn-Al ₂ O ₃ Composite Coatings and it's Corrosion Behaviour, Generation and corrosion behaviour of Zn-Nano sized carbon black composite coating Corrosion Resistant Nanocrystalline Zinc Coating
62	The International Conference on Frontiers in Chemical Research (ICFCR - 2008)	Mangalore University	December 29-31, 2008	Preparation of Zn-Al ₂ O ₃ Composite Coatings and it's Corrosion Behaviour, Effect of electrolysis parameters on synthesis of ZnO nanoparticles

				Corrosion studies of bright Zn-Fe electrodeposit, Influence of Additive on bright Zn-Ni alloy Electrodeposition, Preparation of Zn-Al ₂ O ₃ Composite Coatings and it's Corrosion Behaviour, Effect of electrolysis parameters on synthesis of ZnO nanoparticles
63	Two day National Conference on Chemistry and Molecular Nanotechnology for Industry and Society	Kuvempu University	16-17 th January, 2009	Corrosion behaviour of Zn-Ni-F _e 2O ₃ Nano Composite Coating
64	State level conference on Nanotechnology	Kuvempu University MBR college, Sirigere	14 th August 2009	A Hybrid Electro-Thermal Method for the Preparation of Large ZnO Nanoparticles
65	Two Day International Conference on Recent Advances in Industrial Electrochemical Science and Technology	Mangalore University (Seven papers presented)	05-07 th November 2009	The Synergistic Effect of Additives on Improving the Brightness of Nanocrystalline Zinc Electrodeposits, Electrochemical Studies on Electrodeposition of Zn-MoS ₂ Nanocomposite coatings, Electrochemical study on treatment of synthetic dye effluent
66	National Conference on Recent Trends In Chemical Research	NITK, Surathkal, Manglore (six papers presented)	8- 10 th March 2010	Electrodeposition and Corrosion behaviour of Zn-BN Composite Coating, Electrodeposition of Zn-TiO ₂ nanocomposite Coating on mild steel and its corrosion studies.

67	National conference on Recent Advances in Electroanalytical Techniques	Gandhigram Rural Institute-Deemed University, Gandhigram (Five papers presented)	25-26 th Feb 2010	<p>Generation and corrosion behaviour of Zn-TiO₂ Composite Coating,</p> <p>Development of Ni-Zn-P/Nano-TiO₂ Composite Coating and Their properties,</p> <p>Generation of Nanocrystalline NiO particles by a solution combustion method</p>
68	Two day national conference on Recent trends in Chemical and Biological Sciences	Kuvempu University (seven Papers Presented)	March 30 th -31 st 2010	<p>Generation of nanocrystalline NiO particles by solution combustion method and its application for Zn-NiO composite coating</p> <hr/> <p>Influence of additives on zinc electrodeposition, Synergistic inhibition behaviour of benzisothiazolepiperdine and iodide ions on mild steel corrosion in acid medium</p>
69	Third conference of Karnataka Science and Technology Academy,	Manasa Gangothri, Mysore University, Mysore.	15 th – 16 th February 2011	Globalization of Science and Technology opportunities and challenges
70	Invited talk	Government Women College, Mulabagilu, Kolar	24 th February 2011,	“Electrochemistry for Technological applications”

71	Two day National conference on Social relevance of chemical sciences	Kuvempu University (Sixteen Papers presented)	26 - 27th March-2011	Ni/nano Si ₃ N ₄ composite deposit, characterization and corrosion behavior. New brightener for zinc electrodeposition and its synergistic effect with cetyltrimethylammonium bromide on properties of deposit. Generation of Co ₃ O ₄ microparticles by solution combustion method and its Zn- Co ₃ O ₄ composite coating for corrosion protection. Study on the inhibition potential of taurine for the corrosion of steel in acid media.
72	International conference on Global challenges – the role of chemistry in giving their solutions.	ICC, Bangkok, Thailand.	11th – 15th June 2011	Generation of Co ₃ O ₄ microparticles by solution combustion method and its Zn-Co ₃ O ₄ composite coating for corrosion protection.
73	Invited talk - Refresher course	Mysore University, Mysore.	20th June 2011	“Electrochemical concepts for development of materials and their key technological applications”
74.	National Symposium on Chemistry and Humanity (NSCH - 2011),	Department of Chemistry, MIT, Manipal University, Manipal – 576 104.	11th – 12th July - 2011.	Ni/nano Si ₃ N ₄ composite deposit, characterization and corrosion behavior. Fabrication, characterization and corrosion behavior of electrodeposited Zn-TiO ₂ composite coatings.
75.	UGC sponsored National Conference On “Recent Trends in Chemistry (RTC –	Department of Chemistry, P.E.S. College of Science, Arts & Commerce. Mandya – 571 401, Karnataka.	16th & 17th September	Veratraldehyde as a corrosion inhibitor for zinc in different acid medium. Computational and

	2011)”		2011	experimental evaluation of the acid corrosion inhibition of steel by Tacrine.
76.	Colloquium on “Higher Education in 12 th Five year plan” organized by Karnataka State Higher Education Council & Centre for Educational and Social Studies	Central college, Bengaluru.	23 rd December 2011	
77.	National conference on chemical and Environmental Science – 2011 (NCCES -2011)	Mahavir Jain college. Bengaluru.	28 th and 29 th December 2011	Synthesis of pseudophobic CO_3O_4 microparticles by solution combustion method and its zinc composite coating for corrosion protection.
78.	Two day Workshop On “Electrochemical Techniques for Nano-Scale Surface Engineering” (ECTNSE-2012)	HBNI Auditorium Bhabha Atomic Research Centre Trombay, Mumbai.	5 th and 6 th January, 2012	Mulliken Charge Evaluation of the acid corrosion inhibition potential of few organic molecules containing the methylthiophenyl moiety
79	Two day national seminar on “Chemistry-Our life our future” (NCOF-2012)	Kuvmepu University Shankaraghatta	25 th – 26 th April, 2012	-

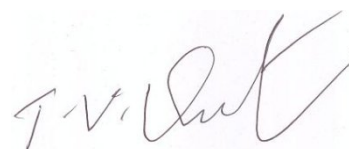

80	5 th annual conference on "Science & technology for societal transformation" jointly organized by KSTA & Dayanand Sagar Institutions.	Dayanand Sagar Institutions	19 th -20 th December 2012	'Spectrophotometric estimation of donepezil hydrochloride in tablets' 'Development of electrodeposited Zn-HNT nanocomposite coatings' 'Kinetics and mechanistic investigation on oxidation of Phenylephrine Hydrochloride by Chloramine-T (CAT) in HCl medium' 'Self assembled sodium oleate monolayer for corrosion inhibition of mild steel in saline water
81.	International conference on advances in materials science and technology ICRAMST-13	NITK Surathkal	17-19 th January 2013	'Surfactant effect on Zn-Si ₃ Ni ₄ coating, electrochemical properties and corrosion behavior' 'Electrochemical degradation of acid red I dye and its treatment by UV light exposure' 'Development of high performance electrodeless Ni-P-HNT composite coatings'

Declaration:

I hereby declare that the information furnished in this resume is true to the best of my knowledge and belief.

Place: Shankaraghatta

Date: 11/09/2013

(Dr. T. V. Venkatesha)
